DETAILED ACTION

1. This Office Action is the answer to the communication submitted on 6/01/2006.
2. Claims 1-22 are pending in this application.

Response

3. The cited art rejections are withdrawn by the examiner due to applicants' arguments and the claimed invention is not obvious based on those cited art.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicants regard as the invention.

Claim 15 is directed to a method of controlling a vehicle, comprising:

...

- ...does not output at least one active input;
- ...
- providing an implementation subsystem;...
- This claim is unclear in present form, it should be changed to "...does not output any active input"), and "providing an implementation subsystem"; is essential to the claimed invention but not show in the claim.

Conclusion

5. Claims 1-14, and 16-22 are patentable; claim 15 is rejected.
